Vision

To be a sustainable, economically and socially viable municipality where residents enjoys a high quality of life

Mission

We will strive to put the needs of the community first by:

- a) To economically and socially develop the municipal area;
- b) empower the community through transparent, accountable democratic governance and sound financial management
- c) by optimising all available resources and human skills

1. Introduction

As a developmental institution, Siyancuma Local Municipality is committed in supporting measures that assist and empower its community. It is accepted that large sections of the community cannot exist without intervention and it is therefore the duty of the municipality to support and to ensure that citizens are able to access their constitutional right to have access to a basic level of services.

The municipality must therefore at all times strive to fulfil the constitutional objectives as contemplated in Section 152 of the Constitution and to meet the criteria for a credible indigent policy as laid down in the Credible Indigent Policy Assessment Framework, 2008, provided by the Department of Local Government.

The successful implementation of this policy depends totally on affordability and the social analysis of the area as should be included in the municipality's Integrated Development Planning, with regard to affordability the foundation is laid in section 74 of the Municipal Systems Act, 2000, which stipulates that poor households must have access to basic service through tariffs that cover only the operating and maintenance costs.

The municipality therefore adopts an indigent support policy which embodies an indigent support programme not only providing procedures and guidelines for the subsidisation of service charges to indigent households in its area of jurisdiction, but also to increase the quality of life of the beneficiaries by assisting them to exit from indigence.
